SATURDAY, MARCH 28, 1868.

ZAMPILLEROAS-STATION.

Many of the uninitiated have been sorely puzzled at the signification of this polysyllable. It is quite a new word, invented to express a certain line of business, and although improperly applied to the flying trapeze of Mr Hanlon Lees, is especially expressive of the Harry Zimmermann's numerous nouvres. The agent of the Northern Railway has *zampillerized the stations*, after the manner of Garibaldin, converting Belgrano into Alsina, and Morón into Rivadavia. Unfortunately, he has gained so many followers in this galvanizing theories, that the transit of the country is seriously endangered. St Vitus's dance was not half so contagious in France and Flanders, as this *Stationem a introducsed* by Mr Zimmermann, Mr Portchaise has a morbid passion for notoriety, and wish to see their names emblazoned on railway boards which in Firmin tone the inscription—

A-t-il des hommes—Cote des femmes.

It seems useless to endeavor to stem the torrent with the ordinary barrier of reason and common sense, for every swindling historian, or clique speculator sees in his dreams some railway station near Cape Horn, or the Chaco, decorated with his name. So late as Wednesday last we vigorously attacked this abuse, and warned our readers of the danger that Mr. Zinn ermann's Zampillerean-Steam Company, should take a leap from Medrano to Moreno. This morning's *Siglo* announces that the flight of the trapeze has been to Rosario. The following are the names of the Zampillerean stations on the Cordoba line: Mitre, Rawson, Elizalde, Velez Sarsfield, Costa, Gelly-obes, Collon, and Pozo.

As it would be a pity the Tinner's art should not lend its attractions to such pretty sign-boards, we beg to suggest the following emblematical accompaniments.

Mitre station. An apotheosis of the regenerator of the republic flying into glory, with the life of Belgrano under his arm, an umbrella overhead, and M. Dimenil pulling him down by the coat-tails.

Rawson-station. The state physician with pestle and mortar work away vigorously to produce the elixir of good constitution. Around him are the drugs, corked cotton, locomotives, and telegraphs.

Elizalde station. A young gentle man, with "Foreign Affairs" inscribed on his cap, is represented blowing soap bubbles, one of which is the "Peruvian alliance," and another "Brazilian extradition."

Sarsfield station De Velez is sitting cross-legged with a hand and three bubbles, Revenue, Nut, Debt, and Land, pet, begging the public to guess about which the jaw of Finance is found.

Costa—station. The inspector in Lily of Laws mounted on a loc motive as med "Capitalization" which whistle and lets off steam in an alarming manner.

Gelly-obes station. A rostrum surmounted by a hand and hammer will the appropriate device "Going, going gone!"

Pozo station. Castor and Pollux with likenesses of the Governor of Cordova and General Lamadrid. The latter seated on an electoral urn, t which the latter applies a match, in or ler to blow them up.

Collon-station. "Public land sale here" with tenure during the office of the Commissioner of Lands. No squatters allowed after the party has left the office

Such is a brief sketch of the Zimmermann amplitude station movement. Such bids fair to work a revolution in railway nomenclature, more remarkable than anything else. It is evidently an omission, that the patentee himself has not even a water tank converted into a memorial of his name. As there is yet time to christianize the locomotives we would suggest some of these Gossypium, Weglewight, Shallard, Tornquist, Hicken, Bosch, Gallo, Indijens, Juan Vallejos, or such other Zampillerenstating epithets as will suit our proposed railway metamorphoses.

Well Alsina, Rivadavia, and Pozo will be like a wrinkle? or rather expose, deemed as to iron-y whenever we mention *Cayenne de Fer?*

EDITOR'S TALLE.

The most go ahead man in town is Mr Steenbock, who has already got the contract for supplying the Government offices and all the public schools in the country with ink.

The Northern Railway Company have arranged that, henceforth, all trains go at half-past twenty-eight Rivadavia. We thank Mr Zimmermann for this, as it will secure the road more business.

The best use to is to come off between "Criolla," the winner of the last Belgrano race, and a horse of Colonel Machado's. The race will take place in Ensenada, and betting is now open.

We learn that a great many English residents leave by this packet for England. We wish them all a pleasant voyage and speedy return.

A grand circus company has been opened in the retired country village of San Antonio, and is drawing ere ed houses. An ordinary man rum an unbridle mule form part of the com pany.

On yesterday, we solv over 200 Handkerchiefs for translation to Europe. The postage is frightful -is.

The report about the "Alabama" seems to be well founded, but the assertion that Mr Seward is going out of office seems erroneous. She is, it appears, in the neighbourhood of the Rio Grande, on the look out for prizes.

The most splendid scheme of the day is the new Paper Bank in Entre Rios. We oppose, on principle, the whole affair. We object to the board of directors, as being all military characters; we object to the omission of paper money, so long as the Republic is destitute of a circulating medium, and if without insurance amounts to anything, we hope to burst this Bank bubble, which is equivalent to a breach of faith with the public. We object to the signature of "men of the sword, not of the pen."

General Urquiza, we are glad to see, does not figure in the matter. He speaks for his people when he says, If Entre Rios wants a Bank, let it have one, let not such a concern as the one proposed, which is but a mere machine for moneylenders office to demand specie, he runs the risk of getting run through by some of the military directors.

We are glad to see by Governor Saavedra's circular respecting the Cordova Railway. He deserves every praise for his exertions, and we have every hope that Europeans will subscribe their mite towards this national undertaking.

The contract between the National Government and the Baron Mauá is before the public. It promises every advantage to our Finance Minister. We are not surprised to learn that Mr Sarsfield made "two bites of a cherry" in the matter, as the "reservation of the San Nicolas and Buenos Ayres guarantees" would be a mere flea-bite more trouble in the end. Better far had he a-ked the Baron to double the credit, and give him all the custom house duties, for the next ten years, giving half to the Casa de Moneda and half to the Mauá Bank.

Our circulation by this mail has been greater than by any previous one. One party took 112 extra copies of the "Standard," for transmission to Europe. We feel confident that 2000 copies of the "Standard" went to Europe yesterday, whilst our Hand books could not be found last enough to supply the demand. Mr Zimmermann has this trunk is literally crammed full of Hand-books, and regrets that we did not defer the publication for another month.

POST-OFFICE REVIEW

No one ever doubted that Mr Posta-les was eminently "a man of letters," but many are ignorant of the fact that he gets up an annual Magazine, in which he makes a comprehensive review of all the Republic has done during the year. The fifth number of he "lost-bag" is before us. As a specimen of typography it is highly creditable to Messrs. Beraheim & Bon.o. he selection, order, and treatment, of he subjects, give a fair idea of how largely the department has developed in our systematic P.M. general and how logically Sor. Posatles frames his minutes notices. For instance, in showing a nett gain of $6,837 in the 9 months ending Sept. 3 th 1-62, is very satisfactory. The average of the letters per day through the country was 1,500 per diem, papers 480. 2 letters, and 3 dition among the Guaranis that the paper, being imported for the one exported. The postal-line a well In my return I passed through two arranged service, both in this province villages called *Yaguaron* and *Ita*, which and in the interior. No money has consist almost entirely of Guarani Inbeen lost, last year, through the post, dians and afford a very fair specimen the only evident being for some cu- of the mode of life among that important tribe.

The Paraguayan Government has been very civil to me, and I have had every facility in the pursuit of my inquiries. In several places I have met with the Jesuit for the cultivation of Cotton published at Montevideo, and have been told that a good deal of seed has been planted the past season. The chief subject at present seems to be tobacco of which immense quantities are raised. The Yerba mate does not grow in these parts of the Republic but is found growing wild in the forests of the eastern and northern districts.

IMPORTANT DOCUMENT.

CIRCULAR.

To the undersigned Commissioners charged with raising subscriptions for the Cordova railway

Buenos Ayres, March 26th 1863.

The National Executive having addressed the Provincial Government, inviting Inter-co-operation for the realization of the projected railway from Rosario to Cordova by means of subscriptions, and the Government of Buenos Ayres having conceived the advantages which this National work promises to the Argentine Provinces, and to us as much as the rest, believes it is fulfilling a duty in lastening to realize the wishes of the Central Government, instituting committees which may promote the participation of the residents of this city in the enterprise.

The National Government taking advantage of the surveys made in 1-55 by the deceased Engineer Allan Campbell, has had the road judgment to contract with such an accredited person in this description of undertakings as Mr. Wheelwright, for the construction of a railway, on reciprocally advantageous bases.

The beneficial results which the project offers to the trade of Buenos Ayres are incalculable. In the first place the railway will strengthen the bonds of fraternity between the provinces, which it will place in close communication; it will resuscitate industry, give useful occupation to the people, making them prosperous and honorable, and will unhappily the spirit of disorder should prevail in any place it will give to the authorities the means of rapidly succouring it, re-establishing the empire of the law which guarantees all liberties.

To these general advantages for Buenos Ayres must be added that of its central and favorable situation in the rest. The railway will fill the province of Santa Fe with a labo ious and consequently prosperous life, and thus have rich neighbours who will increase both their own and their neighbour's wealth and permanently establish peace. Thus will be developed the riches of traffic, the productions of the country will augment, and thus the provincial merchants will be better able to meet their obligations in this market, which, owing to its geographical position, will ever be the emporium of commerce for the whole Republic, without inspiring any, and of mutual benefit to all.

As regards the advantages promised to the Capitalists, not only does the National Government guarantee 7 p% on the capital, but also it has made most valuable concessions of Public Lands to Company, which Mr. Wheelwright, no doubt will turn to the on their right—the battery of the Washgreatest advantages, accepting the plan ington Battery, on Marye's Hill, Railroad Company, an immigration scheme which will give increased value successful, and most disastrous to them to the enterprize. In these considerations the Provincial Government cannot see with pleasure, the initiative in our this National undertaking, and invites they were driven back with immense the Provincial Government to call slaughter to the point where I stood, a meeting for the purpose of calling with Generals Lee and Longstreet upon their fellow countrymen to come say—our Special Artist, writing from forward and subscribe to the Rosario & the Confederate camp. I could see Cordova Railway Co.

THE WAR IN AMERICA.

THE BOMBARDMENT OF FREDERICKSBURG.

Fuis net of the Federals, which took place on the 11th of December last, be the last hostilities on the Rappahannock which continued for five days, and ended, as our readers are aware, in a decisive victory for the Confederates. At the time referred to our Special Artists for making the accompanying Illustration (on page 116) the Federals had over 150 guns erected on the town from the heights on the opposite side of the river; and it was under cover of this tremendous cannonade that their pontoon-bridges were crossing by three pontoons. Their dense masses are seen in the distance winding down to the river. The town is on fire in various places from the shells, but 3 of Mississippians still hold their ground as sharpshooters on the Confederate bank among the beads of the columns as they appear on the bridges. General Lee's plan, however, as is now well known, was to fe the enemy cross and attack them on the strong position in which he had entrenched his army. The infantry moving along the road in the foreground are preceding to relieve the front of the battery seen on the hill on the left, which was then held by the Confederate defences, and held by Colonel Walton's Washington artillery under Captain Miller Simon.

INCIDENT IN THE BATTLE OF FREDERICKSBURG.—THE ATTACK ON MARYE'S HILL.

The attempt of the Federals to carry the heights of the Confederate position on the left. There, in every attitude of death, lying so close to each other that you might from body to body, lay acres of Federal dead. I counted about most of the faces which lay nearest to Colonel Walton'sartillery were well-known Pennsylvania types. In one small garden, not more than half an acre in size, there were 151 corpses. I doubt whether in any battle field of modern times the like number has ever been so close. By universal consent of those who have seen all the great battles of this war no such sight as this has ever been seen before!"—*London News.*

LOCAL EVENTS.

IMMIGRANTS—A large number have arrived per Italian barque Emilenne, from Genoa.

CORDOVA RAILWAY.—Besides the large subscriptions of Gen Urquiza and Baron Mauá, we hear Mers. Anchoreun and Armstrong have also subscribed large amounts.

The Rosario papers expect General Mitre before the 15th instant and the inauguration to take place on the 20th or the presence of the President and governors of Buenos Ayres, Cordova and Santa Fe; we think that Entre Rios should also be invited, as he is a large subscriber and has been an active believer in the great work.

COLONIA ESPERANZA.—News from Santa Fe states that the crop of cane in this year, from this colony, has been very great, and that the oil manufactory was very successful, and the apparatus was small for the production.

CLUB BUENOS AIRES.—Two of the members of the committee have separated, and prepared another list of candidates, in opposition to that of this club. However, it is not considered the list of the National party, which will probably show another on the day of election—by money.

The club, after a speech from Dr. Adolfo Alsina, voted a subscription to send a flag to the Mexican Government, as a token of sympathy.

SPANISH CONSUL.—D. Francisco Xavier Lozada Melgerejo, Duke of San Fernando, has been recognized by the Government as Spanish Consul in this city.

FORTIN PAVON.—The troops which garrisoned this frontier post have mutinied, killing the two superior officers, wounding another, and escaping to the pampas.

In Santa Fé also the friendly Indians hitherto considered trustworthy have arisen and attacked the town of San Javier: fortunately the population had time to fly to the woods.

These events on our frontiers call for the most serious attention of our Government.

THE GRAN CHACO.—Is at present in the Assumption. Captain Lavarello found that the machinery arrived sufficient, and was obliged to put in for repairs.

DRAMATIC READINGS.

Mr. Baynton begs to announce that his first Dramatic Reading will take place on Monday evening next 30th March in the Scotch school room at 8 o'clock precisely when he will have the honor of reading Shakespeare's play of the "Merchant of Venice" and the celebrated trial Bardell V. Pickwick for breach of promise of marriage.

An eminent Professor will preside at the Piano forte."

Diseases of Head and Heart.

Why are these diseases so fatal? The answer is self evident—because the first disordered action is neglected, or the means for its restoration are misapplied. Neither need be the case at the present day, when Holloway's Pills are purchased everywhere, at a price which places them within the reach of every body. No subscription can ever recover if the primary direction are attended to, as these pills only require to be taken to effect a restoration of deranging those organs which are already acting healthily.

Holloway's Pills are the best purifiers, and are therefore the surest preventives of sickness in all parts of the world, if they be already established, they then become the most unremitting antiseptics.

Sold at the Establishment of Professor Holloway, 244, Strand (near Temple Bar) London and by all respectable Druggists and Dealers in Medicine throughout the civilized world, at the following prices:—1s., 1s. 6d., 2s. 6d., 5s., 11s., 22s. and 33s. each box.

***There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patient in every disorder are affixed to each box.
